------	------------	---

WiSACWIS Release 3.6 Notes

Assessment

pertaining to this tab

Assessment

4648	Rights to Hearing Notice	The Rights to Hearing Notice will now select the Primary Address with the most recent effective date.
------	--------------------------	---

Assessment

4832	Should not be able to delete PS Report Allegations	A worker can only delete an allegation from the Assessment window if the allegation was just added and not yet saved to the Assessment. Allegations that came over from the CPS Report cannot be deleted.
------	--	---

Assessment

4858	Assessment - Allegations tab	Allegations that are created as part of an Assessment are no longer being displayed on the PS Report since the Report is already screened in/out and frozen.
------	------------------------------	--

Assessment

5078	Recurrence of Maltreatment Report	The SM06a03 Recurrence of Child Abuse and/or Neglect has been updated to calculate the percentage of maltreatment correctly.
------	-----------------------------------	--

Automated Messaging

3391	Open Case - Screen In/Out	Automated email notifications will be properly generated for Independent Investigations.
------	---------------------------	--

Automated Messaging

3628	Assessment > Independent Investigation	Automated email notifications will be properly generated for Independent Investigations.
------	--	--

Case Visual Metaphor

4838	Perm Plan Review Document not displayed	If a case has a Perm Plan Review form, the Planning icon is now displayed for the case regardless of whether the case has an existing Permanency Plan.
------	---	--

Collect/Determine Eligibility

4741	med certification tickler	Saving an Initial Medicaid Certification record will generate the med certification tickler.
------	---------------------------	--

WiSACWIS Release 3.6 Notes

CPS Reports

3681	Pending response time-PS Report	<p>A user is required to select a Response Time when the PS Report is being screened in. If the record is being screened in and there is no Response Time selected the following message is displayed:</p> <p>You may not Screen In a PS Report with a Response Time of Pending.</p>
------	---------------------------------	--

CPS Reports

4546	Text -> PS Report from PS Report window	<p>If the age entered for a participant on the Protective Services window is 18 or under, then they display in the Children Section of the PS Report and if the age entered is greater than 18, then they display in the 'Adults In Home' Section of the PS Report.</p>
------	---	---

CPS Reports

4725	Report name not appearing	<p>The problem with Case Report Name not prefilling when linking an intake to a case or creating a case has been fixed. The Report Name will now consistently prefill on cases.</p>
------	---------------------------	---

CPS Reports

4789	Code for PS Report doc window	<p>All children are showing up appropriately on the PS Report, regardless of the year that they were born in.</p>
------	-------------------------------	---

4752	Payment Request window	The Payment Request window is now opened in View Mode when accessed via Search.
------	------------------------	---

Report Selection

4801	PARMS requirements for Time to Adoption	The SM10a20 - Time to Adoption was modified to include a parameter for the County Code, Statewide Code or the Regional Office/Site.
------	---	---

Risk/Need Assessment

4639	The bookmark is missing on the template	This change does not affect Milwaukee County users.
------	---	---

WiSACWIS Release 3.6 Notes

Risk/Need Assessment

The Statewide version of the Safety Assessment (CFS-2073A) now populates the narrative under the second question in the Consideration of Managed Safety Plan section of the template.

The release 3.6 change to the Safety Assessment required that all Safety Assessments where the Word text template had been launched be either Approved or Not Approved prior to close of business January 3.

Safety Assessments where the Word template had been launched and that remain in a pending status may not load properly when release 3.6 is implemented on Jan 6. If this occurs you will need to Not Approve the Safety Assessment and start over with a new Safety Assessment.

System Help & Policy

4803	Help -- Notes-- Case Notes	The WiSACWIS help file has been changed to read 'The Assessment Contact Group Box is accessed by Create/Case Work/Initial Assessment/Assessment Contact'.
------	-------------------------------	---

Ticklers

4574	admin review tickler assignment	Administrative review tickler is now associated with the worker that created it, as opposed to the supervisor that approved the piece of work.
------	------------------------------------	--

Ticklers

4690	Problem creating a new legal status for the child	The Legal Status SAVE process has been fixed. Workers will now be able to save a new legal status for the child.
------	---	--

Tickler Delete

3565	Tickler Deletion	A supervisor can now delete their workers ticklers by accessing the Tickler Deletion window from the Workers tab on the desktop. Ticklers identified in the system as non-deleteable ticklers will not display in the window. To access this new window, select the worker from the workers tab by clicking once with the left mouse button. Next, click the right mouse button and select Tickler Deletion and the workers ticklers will appear in a pop-up window. Select the ticklers that you would like to delete and click ok to save changes.
------	------------------	--

WiSACWIS Release 3.6 Notes

Worker Assignment

4807	Add assignment respon/roles for Child Welfare Type	The following reference values were added with an Assignment Type of "Child Welfare": Responsibility: "Voluntary Services" Roles: "Admin", "Primary", "Secondary", "Supervisor"
------	--	---
